28 TO GRADUATE IN HIGH SCHOOL

WITHIN ONE OF RECORD CLASS LEAVES NEXT MAY.

COMMENCEMENT AT TERM'S END, MAY 21

Baccalaureate Sermon Will Be Given Sunday, May 16—Eight Left January 15.

Within one of the record size graduating class in the history of the Maryville high school will evolve from the local halls of learning when the 1914-1915 term ends May 21 according to W. M. Westbrook, city high school superintendent. The class numbers twenty-eight, while last June twenty-nine proudly left the portals with the parchment.

Added to the eight who were graduated at the close of the first semester January 15, a total of thirty-six will have been taken from the city high school this term, or more than for any other year since the first graduation in 1887.

The spring commencement this year will be held in the high school auditorium, Friday night, May 21, the last day of the present school term. The baccalaureate sermon will be delivered Sunday night, May 16. The place and deliverer have not been decided upon by the class.

About 500 Have Been Graduated.

Last year, school did not end until June 11, on account of the closing schools earlier in the term on account of an epidemic of scarlet fever in the city. When the twenty-eight graduate next May, the Maryville high school will have turned out about 500 young men and women with full high school credits.

Since the first graduating class in 1887, the number of graduates steadily grew, but not until eleven years ago, did any graduate until the term's close. Since 1904, however, the system has been changed so that seniors may receive diplomas at the end of the first semester, if the proper number of credits can be shown.

The spring class has chosen the following officers: Fred Gray, president Miss Mary Lewis, vice-president; Miss Ruby Irwin, secretary; Harold Sawyers, treasurer. The class motto: "Do It To a Finish." The colors are Copenhagen blue and white.

These Compose Class.

The class is composed of the Misses Mary Sewell, ViJune Colden, Olivette Godsey, Lucile Holmes, Marie Hopepr, Amy Clark, Marie Murray, Irene Westfall, Doris Cummins, Blanche Messick, Ethel Stanton, Matie Evans, Mamie Tilson, Mary Lewis, Ruby Irwin, Kathleen Chittenden, Vella Booth and Fred Gray, Harold Sawyers, Vern Pickens, Ruskin Hawkins, Homer Scott, Don Roberts, Harry Messick, Joseph Farmer, Ernest Moore, Irwin Harris and Dean Humberd.

HIGHS TO PLAY MOUND CITY.

School Basket Ball Quintet to Tackle Holt County Experts Friday Night.

The first basket ball game for several weeks will be played by the high school team Friday night, when the expert team of the Mound City schools come here. The game will begin at 7:30 o'clock in the Normal gymnasium The Mound City team has made a good record so far this season and bids fair to give the local quintet the hardest fought game of the season.

The social center clubs of the high school will meet tomorrow night instead of Friday night this week on account of the basket ball game. The usual programs have been arranged by the different clubs.

CHECK TAX LEVY REPORTS

Collections of Hughes, Union and Hopkins Townships Examined by County Court.

The inspection of the tax collection reports of Clyde Long of Hughes township; Frank Wallis, Union township and Charles Worley, Hopkins township is being done today by the county court, prior to the annual settlement with them and their discharge bond. The report submitted by Mr. Long was first examined this morning.

So far, the collector's reports show less tax collected this winter than usually. What levies remain uncollected, will be turned over to County Collector W. R. Tilson, for collection through the courts. The township collectors make no collections after February. New township officers go into office in April.

REV. KILLION TO IOWA.

The Rev. E. W. Killion, pastor of the Christian church of Pickering, who resigned his pastorate there the first of the year, with his family, will move to Murray, Ia., this week, where he will take his new charge.

The Rev. Mr. Killion preached his last sermon at the Pickering church Sunday. The Rev. S. P. Stillman, pastor of the Methodist church, dismissed his congregation and all joined in the services at the Christian church The Rev. Mr. Killion had been pastor of the Pickering church for the past two years. No arrangements have been made for another pastor.

'IS EXCELLENT STOCK JUDGE.'

Instructor, U. of M., Lauds H. D. Lawler, Hopkins, Who Ties For First Honor.

H. D. Lawler, son of Everett Lawler of near Hopkins, a student in the College of Agriculture at Columbia, who recently tied with two other students for first place, in a live stock judging contest at the University of Missouri, is lauded by E. H. Hughes, instructor in animal husbandry. In a letter received today by the Democrat-Forum Prof. Hughes says in part:

"H. D. Lawler, who is a Nodaway county boy, had the honor of tying with two other men for high place in the contest. Mr. Lawler is a very excellent livestock judge and deserves much credit for his achievement."

Here From Kansas.

Mrs. Lloyd Muir of Lenora, Kan., arrived in Maryville last night to visit with her parents, Mr. and Mrs. I. W. Nixon.

Mrs. J. H. Seigfreid of Lamar, Colo., who had been visiting her daughter, Mrs. George Demott, left yesterday for her home.

TO INSURE SUPPLY

LIGHT COMPANY WILL DIG WELL FOR EMERGENCY USE.

TO PREVENT SHORTAGE

C. C. Hellmers, Manager, Says New System Would Be Used Largely For Safety—May Go 800 Feet

A contract has been awarded by the Maryville Electric Light and Power company for the digging of a deep well at the rear of the company's plant, Fifth and Buchanan streets, to insure a supply of water in case the municipal supply shoul fail, according to C. C. Hellmers, manager. W. M. Edwards of Fulton, who was here a few days ago to view the place and determine approximately at what depth a sufficient water supply could be obtained, will establish the system.

The work will begin as soon as Mr. Edwards can move the well digging apparatus to Glascow, near where it now is, and ship it to Maryville. After beginning, it will require six weeks to two months to complete the installation, Mr. Hellmers said.

Expect Supply at 800 Feet.

The company is prepared to go as deep as 1,000 feet to get ample supply, though it is believed that a sufficient quantity can be secured at between 600 and 800 feet. He has one of only five outfits in Missouri according to Mr. Hellmers, that can go to that depth.

According to the geological survey of Northwest Missouri, a salty water would be secured at a depth of 1,000 feet, so that it is the hope of the local company that a sufficient supply can be secured at a less depth, on account of the detriment of briny water would be to the boilers and machinery used in connection.

The deepest well now in Maryville or vicinity is located on the Beal property, near the intersection of the Burlington and Wabash railroad tracks in the northeast part of the city. It is 1,023 feet deep and contains water slightly salty.

Is Protection Move.

The light company will retain the pipes to the municipal water plant, even after the deep well is installed, so that in case of emergency, the company could fall back on the municipal plant for supply.

"It is not to save expense that we are trying to establish a private supply of water, with which to operate," said Mr. Hellmers this morning, "but merely to be protected in case the municipal supply should fail on account of lack of water in the 102 river.

"Last summer we were compelled for a month, to have water shipped in from St. Joseph, at a cost of approximately $500, while the average monthly water bill in normal times ranges around $50 to $75. So that such a case causes not only added expense but trouble and delays besides.

The light consumes between 10,000 and 15,000 gallons of water daily, according to Mr. Hellmers.

CITY HOME BRINGS $8,000.

Albert Watts, Exchanges Lawn Avenue Property for Farm of Lake Scott.

The fine residence and lots owned and occupied by Albert Watts on Lawn avenue, were sold for $8,000 to Lake Scott of Andrew county yesterday afternoon. Mr. Watts in return purchased the 94-acre farm of Mr. Scott in Andrew county for $14,000. Mr. Scott will move into his newly acquired residence here soon. Mr. Watts has not decided what he will do with the Andrew county farm.

Allen Brothers, who made the deal, have sold property aggregating a value of $104,000 within the last few days.

LAUDS CLYDE SCHOOL.

County School Superintendent Finds Good Discipline of Pupils—To Elmo Today.

The discipline and industry of the pupils of the Clyde school and the training given by the two teachers of that school, were lauded by Prof. Bert Cooper, county school superintendent, on his return from a visit to that school yesterday afternoon. The teachers are Sister M. Frances and Sister M. Loretta.

Mr. Cooper will visit the public schools at Elmo and Dawson today.

Women May Serve on Boards.

Women of Missouri are made eligible to hold the office of school director in all rural districts and in cities under 75,000 population by a bill engrossed in the senate of the state legislature.

'SIN BRINGS RUIN'

CHARLES A. FINCH ADDRESSES CHRISTIAN CHURCH AUDIENCE

CONVERSIONS CONTINUE

Three Additions Last Night—Sermon Subject Tonight Is "The First Step Into the Kingdom."

Three more converts were added last night to the number during the revival meetings at the First Christian church.

Tonight the topic of the sermon to be given by the evangelist, Rev. Chas. A. Finch, is "The First Step Into the Kingdom."

Last night the Rev. Mr. Finch spoke from the subject, "Why Was It Necessary That Christ Should Die?" In part he said.

To Fulfill Prophecy.

"The prophets had foretold the coming of Christ. His death and resurrection. The new law also was a matter of prophecy. Christ was the maker of the new will. Now a will is of no force without the death of the testator, therefore, Christ must die that His will might be probated. The apostles were the administrators selected by the Lord himself to explain the will and reveal its terms to men. Upon the day of Pentecost, the terms by which men became partakers of the riches of God, were made known. In the parable of the laborers in Matt. 20, the men who were hired at the eleventh hour were men who had no opportunity to labor before. This is vastly different than the case of a man who has rejected Christ all his life and seeks to crawl in at the last moment.

"Christ holds a different attitude than some who claim to have something worth while for men. In giving them the gospel He presented them with something better than they had. His work was constructive. When a man seeks to take away your faith in Christ insist that he give you something in the place of it or he will have his trouble for his pains.

To Show His Love.

"Greater love hath no man than this, that he shall lay down his life for his friend. In giving His son, God proves His love for man. A man says, 'I would not give my son for any man.' That proves the difference between finite and infinite love. If I should ask the angel Gabriel how much God loved the world, he could not give me a better answer than John 3:16, 'For God so loved the world that He gave His only begotten Son.'

The Awfulness of Sin.

"Christ must die in order to show the destructiveness of sin. A perfect God would hate sin perfectly while loving the sinner. Perfect hate upon the part of a perfect God could find perfect expression only in a perfect sacrifice. The lifted up Christ reveals the work of sin through hate when it is full grown. You need not be afraid of anything or anybody but sin.

Sins ruins families, blasts manhood, blackens womanhood, breaks hearts, produces suffering, wretchedness, sends women and children in rags and misery on the streets, puts out the sun of hope, and casts the night of eternal despair over the world. It was the crucifixion of the sublimest character of history, the tender, loving, matchless Man of Galilee that calls the attention of the world to what sin does. No flower of hope, no starry future, no precious child, or dear companion but what sin will destroy if it destroyed the loving Son of God.

To Demonstrate Immortality.

"There was no light beyond the grave until Christ broke its bonds, and arose triumphant from the tomb. Today when the telegram hurries you home with sickening fear you come in sight of the old house and see the crepe floating from the door knob, the thought of immortality alone can sustain. Mother meets you at the door and you take her in your arms as she sobs his last words to you. O my boy. 'Tell him,' he said before he died, 'that I die in the triumphs of a living faith,' and as you look down upon the peaceful face of father you hear the words of the angel. 'Why seek ye the living among the dead, He is not here, He is risen.' The resurrection is the most vital thing in Christianity and Jesus must die in order to prove the fact of a new life for all who believe."

To Attend Funeral.

Francis Hunt, Jr., who is attending school at St. Joseph, came to Maryville at noon to attend the funeral tomorrow of his grandfather, D. S. Holmes, who died yesterday morning.

LEVI KELLY BACK TO JAIL

Assaulter of John Touhy Gets Drunk Month After Release, Charged.

Levi Kelly, who was sentenced last fall to serve a sentence of six months and pay a fine of $100 for assaulting John Touhy last June, was remanded back to the county jail this morning by Circuit Judge W. C. Ellison, on complaint that Kelly had gotten drunk, since being paroled a month ago. Kelly had served about three months of his sentence when released on parole.

He now will have to serve full time for failure to abide by parole requirements. His parole was secured largely through the efforts of the Rev. L. M. Hale, pastor of the First Baptist church.

The assault on Touhy occurred at Third and Market streets as Touhy was in the act of boarding the city water wagon, which he operated. Kelly struck Touhy in the head with a brick. They had quarreled while both were employed by the Shoemaker-Bovard Transfer company, it is said.

TWO DRILL TEAMS COMPETE

W. O. W. and Woodmen Circle Squads Return From St. Joseph Fraternal Contests.

The drill teams of the Woodmen of the World and of the Woodmen Circle which competed yesterday with other drill teams of Missouri and Kansas, in a Fraternal Week contest at St. Joseph, returned last night and today. The competitive drills were held in the Auditorium. The women's team, sixteen strong and uniformed, presented a much better appearance than when it held its first drill during Homecoming Week here last fall.

One of the teams it competed with was the crack team of Kansas City which has been in existence for five years and has won high honors in Missouri, Iowa and Oklahoma.

The announcement of winning drill teams will not be made until Saturday.

JOE JACKSON, JR., HEADS CLUB.

Presbyterian Organization Elects Officers at Close of Monthly Banquet.

Joseph Jackson, Jr., was elected president of the Men's Club of the First Presbyterian church at the business meeting of the club which followed the monthly banquet served last night in the church. The other officers chosen were Charles Wadley, vice president and Fred French, secretary and treasurer.

Plans were laid for the entertaining of the women of the church at a banquet to be given by the Men's club on the night of April 6.

To perfect these plans a committee of five was appointed last night. This committee is composed of H. P. Swinehart, the retiring president of the club, John Richey, Charles Wadley, Hal T. Hooker and Roy Curfman.

At the banquet last night plates were laid for forty-five. Following the dining, a musical program was given on the piano and trombone by Hal T. Hooker and daughter, Halcyon.

LIQUOR GETS 2 IN 'BAD'

John Williams Caused Levi Kelly's Return to County Jail, State Charges.

Close upon the heels of the remanding of Levi Kelly back to the county jail for violating his parole, came the arrest this afternoon of John Williams, a laborer, by Sheriff Edwin Wallace, on a charge of having given liquor to a minor. That said minor was Levi Kelly, 19 years old. The transaction is said to have been made Monday.

Kelly was sent back to jail by Circuit Judge W. C. Ellison this mornig, after being free a month. He was serving a sentence of six months and fine of $100 for an assault on John Touhy last June.

Williams has never been in trouble before, according to Sheriff Wallace. He will be tried during the April term of circuit court here, which begins April 5.

MANY FARM BILLS PROPOSED

Betterment to Farmers, Intent of Several State Measures—Committees Favor Them.

Several bills of interest to farmers and stockmen have made marked progress and are now far ahead of hundreds of other bills introduced at the same time in the state legislature. As this is regarded as a "farmer legislature," and as there has been practically no objection to the bills thus far, it is probable that they will become laws.

One of these embodies the "Nebraska plan," providing that county courts may appropriate money with which to encourage farmers' organizations of all kinds. The money may be used to pay hall rent, secure speakers, for printing and the like, and it is said that under a similar act in Nebraska 370 permanent associations have been formed. The societies take a wide range as to purpose and cover practically all phases of rural life. The bill has been favorably reported by the agricultural committees of both house and senate.

"Pure Seed Bill," on Calandar.

That old friend of the farmer, the "pure seed bill," which has been before practically every assembly for the last decade, only to fail because of hostility of the seed men, is again on the calandar, but in so mild a form as not to draw the fire of the dealers. It was drawn by Sam Jordan, farm adviser of Pettis county, and has the approval of the state board of agriculture. The board is permitted to make its own rules regarding the sale and distribution of seeds.

Missouri is one of the few states of the Union that has failed to enact legislation of this kind, and the result is said to be that it is the dumping ground for seeds that cannot find a market elsewhere. It is argued that Missouri must act this time as a matter of self-protection. The bill, which has been favorably reported in both houses, has an emergency clause.

Another bill to meet favor of the agricultural committee contemplates the annual collection of argricultural statistics. This is the Coburn law of Kansas, and requires county assessors outside the large cities, to ask of each taxpayer a few questions as to the number of acres of corn he has under cultivation, number and condition of his livestock and the like. This information is then collected from the several counties and published.

For Stockman's Relief.

A fourth bill is designed especially to better the conditions of the stockman and dairyman. It provides that if a dairy cow, for example, is condemned and killed under orders of the state veterinarian on account of having been exposed to a contagious disease or for failure to pass the tuberculin test, the dairyman may be paid out of the state treasury a maximum of $200 if the cow was a registered thoroughbred animal. If a "grade,' 'the maximum is $40 and the minimum $25.

The state cannot pay to exceed $25 under the present law for any animal killed under these conditions, since the act does not take into account the value of the animal. A result of this is said to be that farmers and dairymen had begun to lose interest in improving their herds.

This condition was aggravated by the recent epidemic of foot and mouth disease, which greatly increased the hazard, causing farmers in some parts of the state to dispose of their registered stock, in several instances at a sacrifice. They calculated that if they were going to forfeit their stock to the state at $25 a head they could better afford to lose an animal costing $40 than one costing several times that amount.

Friends of the measure contend that it will inject new interest in the breeding of fine stock, for both dairy and beef purposes.

All of these measures have been reported out favorably by the committees.—St. Joseph News-Press.

HOLD PUBLIC SALES TODAY.

J. W. Wiley, near Pickering and I. C. Roelofson, Barnard Offer Farm Stock.

Public auction of livestock, farm implements and grain were offered today by J. W. Wiley, two miles northeast of Pickering and by I. C. Roelofson, at his Oakdale farm adjoining Barnard. Mr. Wiley has rented his farm and will retire.

Mr. Wiley's offering includes thirteen head of horses and mules, forty-one cattle, seventy hogs and fifty-eight young Shropshire ewes. Mr. Roelofson offered fifteen head of horses and mules, forty young cattle and forty fall shoats.

Mrs. Andrew Maxwell and daughter, Helen, of Lucerne, arived in Maryville yesterday to visit Mrs. Maxwell's daughter, Opal, who is attending the Conservatory of Music.

John Schrieber of Conception, formerly a member of the county court, was in Maryville yesterday on business.

Mr. and Mrs. Stewart Farrar will leave the last of next week for Volin, S. D., to make their home in the future.

EXPECT BIG WHEAT YIELD

Nodaway Farmer Predicts Good Harvest and Big Prices Ahead.

Nodaway county farmers are preparing to materially increase the acreage they have been sowing to wheat. Representatives of wheat buyers have been through the county offering to make contracts now to buy every bushel of wheat the farmer can raise this year at $1 a bushel.

Farmers are not falling over themselves to sign contracts of this kind, but at the same time the offer is influencing them to increase their wheat acreage. They argue that if the dealers can afford to contract now to pay $1 a bushel in July and August, the market price at that time will be $1 or more and they can afford to carry their own risk, as to price, just as well as can the buyers.

Expect Big Yield .

The indications are, therefore, that this section of country will produce more spring wheat this year than ever before in its history. The only thing that can prevent it would be an unfavorable season. With a reasonable yield, wheat, at $1 a bushel on the farm, is more profitable to the grower than corn or livestock. No one knows this any better than the farmer himself and he is therefore turning his attention to wheat.

"The outlook for business ought to be good," said a Nodaway county farmer today. "The average farmer has been going a little slow for a year or two on account of business conditions. In short, the average farmer hasn't been making any money and when he isn't making money he doesn't spend any. With a favorable wheat season all of us will have money to spend this summer and the merchants and manufacturers in this section will profit thereby."

GETS TOP PORK PRICES.

G. T. Stevenson, Skidmore, Receives $6.70 For 129 Head, Averaging 223 Pounds.

George T. Stevenson, near Skidmore received top price for two cars of hogs which he sold in St. Joseph yesterday. He had 129 head of porkers, averaging 223 pounds each, which brought $6.70 a hundred weight, the record price of the day. In an interview which Stevenson gave at St. Joseph, to the Stock Yards Journal, he said:

"I don't see how I made any money on the hogs I sold today. In order to tide through the season, I had to buy corn at 70c a bushel. The roads are so bad that I couldn't get the corn delivered so I had to bring in the hogs anyway. I took advantage of the snow and drove to the station. It was an awful drive and the hogs certainly showed the effects. However, they took on a good fill here, compared with the weights at Skidmore, from where I shipped."

Mr. Stevenson said that the mud is worse in the country than he has known for many years. It is almost impossible to feed hogs. On account of a concrete feeding pen, Mr. Stevenson had less trouble than his neighbors.

Other Nodaway county farmers who marketed livestock in St. Joseph yesterday were:

C. E. Harvey, Pickering; Wells Bros and Stanson Bros., Maryville; Ed Albright, J. M. Hutt and J. A. McMahon, Skidmore; P. R. Growney, Conception; A. Walters, Burlington Junction.

ST. LOUIS WOMAN SUFFERS FOR 15 YEARS; THEN FINDS RELIEF

Mrs, Rosa Bennett Escapes Operation After Taking Wonderful Stomach Remedy.

Mrs. Rosa B. Bennett of 2606B Olive street, St. Louis, Mo., was ill with stomach troubles for nearly fifteen years. She had a great deal of medical attention and took many treatments. She was advised to undergo an operation by one specialist.

Then she took Mayr's Wonderful Stomach Remedy and found swift relief. She wrote:

"I was a sufferer for about fifteen years and I tried everything. I doctored with different doctors, and each one would give my trouble a different name. One said that I would never be any better until I was operated on, and another one said I had ulcers of the stomach. I could get no relief.

"I took Mayr's Wonderful Stomach Remedy.

"Now I can't praise your medicine enough."

Mrs. Bennett has had just the same experience with Mayr's Wonderful Stomach Remedy that thousands of others have had.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretion and removes poisonous matter. It brings quick relief to sufferers from derangements of the stomach, liver and intestinal tract. Many declare it has saved them from dangerous operations; many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy. One dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold here by Pearson's Pharmacy and druggists everywhere.

MOTHER! IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Bilious, Stomach Sour, Give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup company."

SUBMARINES TO ATTACK FOES ONLY

Germany Accepts All American Proposals but One.

CAN'T RESTRICT OPERATIONS.

Vessels Carrying Contraband or Owned by Hostile Countries Will Be Proceeded Against—Every Other Craft Will Be Safe After Search.

Berlin, March 3.—In its reply to the American note concerning the German naval war zone, the German government agrees that under certain conditions, its submarines will halt and investigate merchantmen and will proceed against only such vessels as are found to be carrying contraband or are owned in nations hostile to Germany.

The reply declares Germanys' readiness to accept virtually all of the American proposals except the one which would restrict the use of anchored mines to purely defensive purposes. The German government expresses the belief that belligerents cannot afford to abandon entirely the use of anchored mines for offensive operations. It is willing to consider the abandonment of floating mines.

In case German submarines take action, after investigation, against merchantmen carrying contraband or owned in hostile countries, it is agreed that such action will be in accordance with the general rules of international law. This proposes, however, the abandonment of the use of neutral flags by merchantmen of hostile nations or the arming of such merchantmen.

Can't Restrict Operations.

If such tactics were employed, Germany contends, it would be impossible to restrict the operations of submarines in this manner.

The reply suggests that there be constituted in the countries concerned American commissions, to which supplies of foodstuffs for the use of civilian populations could be consigned.

This plan, it is said, is contemplated in the American proposals. The reply also suggests that these commissions should be allowed to import the distribution of other articles, especially fodder, which are on the conditional contraband list in the declaration of London. Germany stated that inner defense with articles on the absolute free list in the declaration of London should be abandoned.

URGE SPAIN TO JOIN ALLIES

Social Radical Speakers Protest Against Attitude of Neutrality.

Madrid, March 3.—Many demonstrations, in which Spanish participation in the war was urged, were held in Spain. The most imposing gathering was at Barcelona, where Social Radical speakers protested against Spain's attitude of neutrality and warmly upheld the cause of the allies.

Compulsory Education For Russia.

New York, March 3.—An officer of the emperor's household, in a letter to a friend in this city, writes that the second wide-sweeping reform to be effected in Russia will be compulsory education. The letter states that M. Kasso, minister of instruction and religion, is formulating a decree to be issued on the termination of the present hostilities and to be in full effect throughout the empire within a period of five years.

Receiver Asked For Western Pacific.

San Francisco, March 3.—The Equitable Trust company of New York filed a petition with Judge Van Fleet of the United States district court, asking that the Western Pacific railroad be placed in the hands of a receiver. The petition was joined in by the Western Pacific company and both asked that Warren Olney, chief counsel of the railroads, be named receiver.

VENNER DEFENDS RAIL TRANSACTION

Makes Public Letter to Interstate Board Giving His Side of Case.

New York, March 3.—C. H. Venner, a New York banker, made public a letter he sent to the interstate commerce commission defending the purchase from him by the Chicago, Rock Island and Pacific Railway company in 1904 of the stock of the Nebraska Central Railway company.

Venner referred to testimony by Frederick C. Sharood, an examiner for the commission, that the stock was worthless and that the late Robert Mather, then vice president of the Rock Island company, paid Venner $250,000 for it in settlement of a lawsuit then pending.

Venner incorporated in his letter correspondence between himself and Mr. Mather as proof of the value of the bridge charter and franchises owned by the Nebraska Central.

"It does not follow," his letter continued, "that because the Rock Island never utilized them the company suffered a loss, for it may well be that their ownership enabled the company to make terms with the Union Pacific, the advantages of which more than equalized the cost of the Nebraska Central stock."

160 MINERS ENTOMBED

Only Two Rescued From Wrecked Colliery In West Virginia.

Hinton, W. Va., March 3.—Attempts to reach 160 men reported entombed in two coal mines near here met with little success.

After repeated efforts, one rescue party penetrated the main drift at mine No. 3 about 100 feet and there found an unidentified miner still living, but unconscious. His legs had been broken. Doctors said he would probably die.

The place where the explosion occurred is a drift high up on Quinnimont mountain. Additional volunteers entered mine No. 3 to clear away fallen coal and rock in the main entry. Half a mile from the opening they came across another miner, badly hurt and unable to talk or say anything about the explosion. Here they encountered a mass of debris.

Wilson Abandons Extra Session Idea.

Washington, March 3.—President Wilson stated definitely that he had abandoned plans for an extra session of the senate immediately after March 4, and up to the present had not seriously considered the suggestion of a special session of congress in October.

Wooley Nominated Director of Mint.

Washington, March 3.—Robert W. Wooley of Fairfax, Va., now auditor for the interior department, was nominated by President Wilson as director of the mint, to succed George W. Roberts, resigned.

BAKERS ATTEMPT TO BOYCOTT RETAILERS

New York, March 3.—At the resumption of the state's inquiry into the wheat and bread market, Alfred L. Becker, deputy attorney general, announced that from F. S. Taylor of this city and Louis J. Cobb of Philadelphia, representatives of large baking companies, he would seek facts concerning an alleged combination of various baking concerns and interests.

The deputy attorney general has announced that in addition to the public inquiry, he is making a wide search for evidence that some of the wholesalers have tried to intimidate or boycott retailers who refused to raise prices. An analysis of samples of dough and flour taken from certain bakeries are being made to determine what relation there is between present prices and present ingredients.

We Have Never Shown More Charming Wooltex Tailored Garments

Than these Advance Spring Models now displayed

THE picture shows just one of the many smart new suits presenting the correct style features, many of which are inspired by models brought from Paris where Paquin, Doucet and Bernard have produced splendid styles notwithstanding the war's handicap. Many of these effects are reproduced in the new Wooltex suits and coats now on exhibition.

Suit No. 1709

SMART looking suit adapted from Paquin model. The pocket flaps, set diagonally, are outlined by closely set buttons. Rolling collar forms tabs that button down onto the jacket. New circular skirt, yoke trimmed to correspond with pockets on jacket.

WE are particularly gratified in showing and selling Wooltex garments because they possess the double virtue so unusual in women's ready-to-wear garments of combining fashionable styles and colorings with quality and workmanship of the highest superiority.

We always know that the customer who purchases a Wooltex coat or suit will be permanently satisfied with the garment bought, and we are anxious that you should come and look through this Wooltex collection while they are fresh and new and while possession is so much more enjoyable than it will be later, when the new fashions become more common.

Wooltex garments are absolutely correct in style but never extreme. They delight the purchaser when first worn because of their elegance of materials, their refinement, their superb lines and the splendid tailoring which not only makes them good-fitting, but insures permanence to the shapeliness of the garments.

The new Wooltex suits are shown in many beautiful models at **$25, $30** and **$35.**

Wooltex coats, **$16.50, $20** and **$25.**

THE AMERICAN TOBACCO COMPANY

WHEAT NOT RECOMMENDED.

Agricultural Experiment Station Advices Against Sowing Spring Wheat.

C. B. Hutchison of the Missouri Agricultural Experiment Station of Missouri writes as following about spring wheat:

The Missouri Agricultural Experiment Station is receiving many inquiries this spring in regard to the advisability of sowing spring wheat. Rains last fall at wheat seeding time kept some farmers from seeding the acreage they had intended for wheat this year. With the prospects of wheat commanding, next year, the highest price in decades, there is a temptation to try spring wheat.

Spring wheat is not a safe crop this far south, as the yields are very uncertain. Wheat makes its growth in cool climates and during the coolest part of the growing season. It cannot stand hot weather. When seeded in the fall, it matures before the hot weather of summer begins. In the north, where the winters are too severe for seeding wheat in the fall, spring wheat is grown. In these regions the spring and summers are cool enough to permit its maturing. In those regions where both spring and winter wheat are grown, spring sown wheat nearly always yields less than wheat sown in the fall, and winter wheat is gradually replacing spring wheat wherever the winters are mild enough for it to stand. The winter wheat belt has been gradually pushed northward during the last fifty or sixty years from northern Missouri to northern Iowa. Even northern Iowa is not considered a first-class spring wheat region and it is not likely that the crop would be profitable this far south.

Spring wheat in Missouri matures so late that it is not only subjected to the hot weather, but to rust, chinch bugs and other enemies. Under such conditions the yields become very uncertain, hence the crop is not to be generally recommended for this state. Other crops will be found more profitable.

FIGHTING ALONG EASTERN FRONT

Czar's Armies Push Germans Back to East Prussia Border.

OSSOWETZ IS BEING SHELLED

Nothing Is Heard In London From Dardanelles and It Is Thought Storm Halts Move—Kaiser Rushes Men to Western War Zone.

WAR SUMMARY

The Russian armies are fighting the Germans and Austrians along almost the whole eastern front, pushing the former back to the East Prussian border and meeting the attacks of the latter in the Carpathians.

Germany is believed to be about to send heavy reinforcements to the west. Belgian cities have been ordered to be prepared to billet German cavalry.

Stormy weather is believed to have interrupted the operations against the Dardanelles forts.

London, March 3.—The Russian armies are now engaged in battles along very near the whole eastern front. In north Poland, having been enabled to resume the offensive by means of large reinforcements, they are slowly pushing the Germans back to the East Prussian frontier. In the Carpathians and in eastern Galicia they have been engaged for several days in resisting fierce and repeated attacks by the Austrians.

Except in front of the fortress Osowetz, which they are still bombarding with their heavy guns, the Germans, according to the Russian official reports, have turned their backs upon the Russian railway—their first objective when they emerged from East Prussia on the heels of the retreating Russians a short time ago. In some places, however, they are fighting stubborn rear guard actions.

Despite all this heavy fighting in the east, the Germans are reported to be sending strong reinforcements to the west for a new attempt which they are to make to break through the allies' lines in France and Flanders.

Nothing has been heard in London from the Dardanelles and it is thought possible that the storm is still interfering with the operations.

ANARCHIST PLOT FOILED

Man Who Threw Bomb In St. Patrick's Cathedral Arrested.

New York, March 3.—A desperate attempt to blow up St. Patrick's cathedral in New York with a bomb and the arrest of two men by detectives, who had been informed for months of their activities, was followed by an announcement made at police headquarters that the arrests had balked an anarchist plot to kill with bombs Andrew Carnegie, John D. Rockefeller, John D. Rockefeller, Jr., and other wealthy men. Thereafter the anarchists, according to the police, were to inaugurate in New York city a reign of terror comparable to the days of the French revolution.

It was part of the plot, the police assert, for gangs of men armed with rifles and revolvers to appear simultaneously in various parts of the city, to shoot and to pillage. The biggest banks of New York city were to be blown up and many wealthy men were to be slain.

Liners Reach New York.

New York, March 3.—Two trans-Atlantic passenger liners that left the home ports flying flags of the allies after the German war zone declaration was put into effect arrived here. They were the British steamship Cameronia of the Anchor line from Glasgow and Liverpool and the French line steamship Chicago from Havre. Both carried a large number of passengers.

Bicknell and James See King.

Sofia, Bulgaria, March 3.—The king and queen of Bulgaria granted an audience to Ernest Bicknell, national director of the American Red Cross society, and Henry James, Jr., representative of the Rockefeller Foundation. These Americans have been traveling in southeastern Europe for further relief measures. They arrived here from Nish, Servia.

George E. Garrett Is Dead.

San Diego, Cal., March 3.—George E. Garrett, familiarly known in newspaper offices and to the sporting world as "Willie Green," died here from a complication of diseases of long standing. He leaves a widow and children. Willie Green was better known for his articles on prize fighting and he reported or refereed many famous contests.

Allies Delay Drastic Action.

London, March 3.—To make effective the British declaration of the allies' intention to stop commerce to and from Germany, an order by the privy council will be necessary. Up to the present such an order in council has not been passed.

GERMAN OFFENSIVE MOVEMENT CHECKED

Paris Gives Out Review of Operations In East.

Paris, March 3.—A review of recent military activities in the eastern arena of the war reads as follows:

"The situation in Russia: The German offensive movement in the direction of the Nieman river appears to have been definitely checked. On the left bank of this stream the German forces hold a line running from Pilliwiszki to Chantabine, in the upper valley of the Bobr.

"In the vicinity of this last mentioned place and on the southern boundary of the forest of Augustowo there have been during the last few days several violent engagements, which have resulted to the advantage of the Russians. The attacks delivered by the Germans on Ossowetz and in the region of Jedwabno, to the northwest of Lomza, have not resulted safely.

"In the region of Przasynsz the Russians, after having driven back the attacks of the Germans, undertook a vigorous offensive along a front extending for about forty kilometers This movement was crowned with success. Krasneselo and Przasynsz were recaptured and the Germans were compelled to retreat along this entire front, leaving numerous prisoners in the hands of the Russians.

"All the engagements undertaken by the enemy along the front which extends from the junction of the Bzura river to the Carpathians, as far as Mount Lupkow, have resulted fruitlessly, and the situation here remains virtually without change. All the recent attacks of the Austrian and German forces, which were particularly severe in the direction of Koziuwki and Rozniatow have been repulsed with heavy losses. Judging from other sources also it would seem that the progress of the enemy in this vicinity has been definitely checked.

"To organize the forces with which Field Marshal Hindenburg undertook this offensive movement, which now stands checked, the German brought three army corps from the southern part of their eastern fronts; two others from stations in the interior of the country and one from the French front."

CONGRESS IS BUSY FINISHING WORK

Washington, March 3.—Congress settled down for what the leaders expect to be a continuous session until the gavel falls to signalize its end at noon tomorrow. The house marked time for a few hours after sending the government ship purchase bill back to conference while committees labored on final agreements on the billion-dollar appropriations for expenses of the government. Meanwhile the senate sought energetically to catch up on the legislative program.

Developments of the day practically sealed the fate of the ship purchase bill, administration leaders agreeing that it would be almost impossible to act upon the conference report in the senate after it is disposed of by the house.

28 TO GRADUATE IN HIGH SCHOOL

WITHIN ONE OF RECORD CLASS LEAVES NEXT MAY.

COMMENCEMENT AT TERM'S END, MAY 21

Baccalaureate Sermon Will Be Given Sunday, May 16—Eight Left January 15.

Within one of the record size graduating class in the history of the Maryville high school will evolve from the local halls of learning when the 1914-1915 term ends May 21 according to W. M. Westbrook, city high school superintendent. The class numbers twenty-eight, while last June twenty-nine proudly left the portals with the parchment.

Added to the eight who were graduated at the close of the first semester January 15, a total of thirty-six will have been taken from the city high school this term, or more than for any other year since the first graduation in 1887.

The spring commencement this year will be held in the high school auditorium, Friday night, May 21, the last day of the present school term. The baccalaureate sermon will be delivered Sunday night, May 16. The place and deliverer have not been decided upon by the class.

About 500 Have Been Graduated.

Last year, school did not end until June 11, on account of the closing schools earlier in the term on account of an epidemic of scarlet fever in the city. When the twenty-eight graduate next May, the Maryville high school will have turned out about 500 young men and women with full high school credits.

Since the first graduating class in 1887, the number of graduates steadily grew, but not until eleven years ago, did any graduate until the term's close. Since 1904, however, the system has been changed so that seniors may receive diplomas at the end of the first semester, if the proper number of credits can be shown.

The spring class has chosen the following officers: Fred Gray, president Miss Mary Lewis, vice-president; Miss Ruby Irwin, secretary; Harold Sawyers, treasurer. The class motto: "Do It To a Finish." The colors are Copenhagen blue and white.

These Compose Class.

The class is composed of the Misses Mary Sewell, ViJune Colden, Olivette Godsey, Lucile Holmes, Marie Hopepr, Amy Clark, Marie Murray, Irene Westfall, Doris Cummins, Blanche Messick, Ethel Stanton, Matie Evans, Mamie Tilson, Mary Lewis, Ruby Irwin, Kathleen Chittenden, Vella Booth and Fred Gray, Harold Sawyers, Vern Pickens, Ruskin Hawkins, Homer Scott, Don Roberts, Harry Messick, Joseph Farmer, Ernest Moore, Irwin Harris and Dean Humberd.

CHECK TAX LEVY REPORTS

Collections of Hughes, Union and Hopkins Townships Examined by County Court.

The inspection of the tax collection reports of Clyde Long of Hughes township; Frank Wallis, Union township and Charles Worley, Hopkins township is being done today by the county court, prior to the annual settlement with them and their discharge bond. The report submitted by Mr. Long was first examined this morning.

So far, the collector's reports show less tax collected this winter than usually. What levies remain uncollected, will be turned over to County Collector W. R. Tilson, for collection through the courts. The township collectors make no collections after February. New township officers go into office in April.

TO INSURE SUPPLY

LIGHT COMPANY WILL DIG WELL FOR EMERGENCY USE.

TO PREVENT SHORTAGE

C. C. Hellmers, Manager, Says New System Would Be Used Largely For Safety—May Go 800 Feet

A contract has been awarded by the Maryville Electric Light and Power company for the digging of a deep well at the rear of the company's plant, Fifth and Buchanan streets, to insure a supply of water in case the municipal supply shoul fail, according to C. C. Hellmers, manager. W. M. Edwards of Fulton, who was here a few days ago to view the place and determine approximately at what depth a sufficient water supply could be obtained, will establish the system.

The work will begin as soon as Mr. Edwards can move the well digging apparatus to Glascow, near where it now is, and ship it to Maryville. After beginning, it will require six weeks to two months to complete the installation, Mr. Hellmers said.

Expect Supply at 800 Feet.

The company is prepared to go as deep as 1,000 feet to get ample supply, though it is believed that a sufficient quantity can be secured at between 600 and 800 feet. He has one of only five outfits in Missouri according to Mr. Hellmers, that can go to that depth.

According to the geological survey of Northwest Missouri, a salty water would be secured at a depth of 1,000 feet, so that it is the hope of the local company that a sufficient supply can be secured at a less depth, on account of the detriment of briny water would be to the boilers and machinery used in connection.

The deepest well now in Maryville or vicinity is located on the Beal property, near the intersection of the Burlington and Wabash railroad tracks in the northeast part of the city. It is 1,023 feet deep and contains water slightly salty.

Is Protection Move.

The light company will retain the pipes to the municipal water plant, even after the deep well is installed, so that in case of emergency, the company could fall back on the municipal plant for supply.

"It is not to save expense that we are trying to establish a private supply of water, with which to operate," said Mr. Hellmers this morning, "but merely to be protected in case the municipal supply should fail on account of lack of water in the 102 river.

"Last summer we were compelled for a month, to have water shipped in from St. Joseph, at a cost of approximately $500, while the average monthly water bill in normal times ranges around $50 to $75. So that such a case causes not only added expense but trouble and delays besides.

The light consumes between 10,000 and 15,000 gallons of water daily, according to Mr. Hellmers.

'SIN BRINGS RUIN'

CHARLES A. FINCH ADDRESSES CHRISTIAN CHURCH AUDIENCE

CONVERSIONS CONTINUE

Three Additions Last Night—Sermon Subject Tonight Is "The First Step Into the Kingdom."

Three more converts were added last night to the number during the revival meetings at the First Christian church.

Tonight the topic of the sermon to be given by the evangelist, Rev. Chas. A. Finch, is "The First Step Into the Kingdom."

Last night the Rev. Mr. Finch spoke from the subject, "Why Was It Necessary That Christ Should Die?"

In part he said.

To Fulfill Prophecy.

"The prophets had foretold the coming of Christ. His death and resurrection. The new law also was a matter of prophecy. Christ was the maker of the new will. Now a will is of no force without the death of the testator, therefore, Christ must die that His will might be probated. The apostles were the administrators selected by the Lord himself to explain the will and reveal its terms to men. Upon the day of Pentecost, the terms by which men became partakers of the riches of God, were made known. In the parable of the laborers in Matt. 20, the men who were hired at the eleventh hour were men who had no opportunity to labor before. This is vastly different than the case of a man who has rejected Christ all his life and seeks to crawl in at the last moment.

"Christ holds a different attitude than some who claim to have something worth while for men. In giving them the gospel He presented them with something better than they had. His work was constructive. When a man seeks to take away your faith in Christ insist that he give you some thing in the place of it or he will have his trouble for his pains.

To Show His Love.

"Greater love hath no man than this, that he shall lay down his life for his friend. In giving His son, God proves His love for man. A man says, 'I would not give my son for any man.' That proves the difference between finite and infinite love. If I should ask the angel Gabriel how much God loved the world, he could not give me a better answer than John 3:16, 'For God so loved the world that He gave His only begotten Son.'

The Awfulness of Sin.

"Christ must die in order to show the destructiveness of sin. A perfect God would hate sin perfectly while loving the sinner. Perfect hate upon the part of a perfect God could find perfect expression only in a perfect sacrifice. The lifted up Christ reveals the work of sin through hate when it is full grown. You need not be afraid of anything or anybody but sin.

Sins ruins families, blasts manhood, blackens womanhood, breaks hearts, produces suffering, wretchedness, sends women and children in rags and misery on the streets, puts out the sun of hope, and casts the night of eternal despair over the world. It was the crucifixion of the sublimest character of history, the tender, loving, matchless Man of Galilee that calls the attention of the world to what sin does. No flower of hope, no starry future, no precious child, or dear companion but what sin will destroy if it destroyed the loving Son of God.

To Demonstrate Immortality.

"There was no light beyond the grave until Christ broke its bonds, and arose triumphant from the tomb. Today when the telegram hurries you home with sickening fear you come in sight of the old house and see the crepe floating from the door knob, the thought of immortality alone can sustain. Mother meets you at the door and you take her in your arms as she sobs his last words to you. O my boy. 'Tell him,' he said before he died, 'that I die in the triumphs of a living faith,' and as you look down upon the peaceful face of father you hear the words of the angel. 'Why seek ye the living among the dead, He is not here, He is risen.' The resurrection is the most vital thing in Christianity and Jesus must die in order to prove the fact of a new life for all who believe."

To Attend Funeral.

Francis Hunt, Jr., who is attending school at St. Joseph, came to Maryville at noon to attend the funeral tomorrow of his grandfather, D. S. Holmes, who died yesterday morning.

LEVI KELLY BACK TO JAIL

Assaulter of John Touhy Gets Drunk Month After Release, Charged.

Levi Kelly, who was sentenced last fall to serve a sentence of six months and pay a fine of $100 for assaulting John Touhy last June, was remanded back to the county jail this morning by Circuit Judge W. C. Ellison, on complaint that Kelly had gotten drunk, since being paroled a month ago. Kelly had served about three months of his sentence when released on parole.

He now will have to serve full time for failure to abide by parole requirements. His parole was secured largely through the efforts of the Rev. E. M. Hale, pastor of the First Baptist church.

The assault on Touhy occurred at Third and Market streets as Touhy was in the act of boarding the city water wagon, which he operated. Kelly struck Touhy in the head with a brick. They had quarreled while both were employed by the Shoemaker-Bovard Transfer company, it is said.

TWO DRILL TEAMS COMPETE

W. O. W. and Woodmen Circle Squads Return From St. Joseph Fraternal Contests.

The drill teams of the Woodmen of the World and of the Woodmen Circle which competed yesterday with other drill teams of Missouri and Kansas, in a Fraternal Week contest at St. Joseph, returned last night and today. The competitive drills were held in the Auditorium. The women's team, sixteen strong and uniformed, presented a much better appearance than when it held its first drill during Homecoming Week here last fall.

One of the teams it competed with was the crack team of Kansas City which has been in existence for five years and has won high honors in Missouri, Iowa and Oklahoma.

The announcement of winning drill teams will not be made until Saturday.

JOE JACKSON, JR., HEADS CLUB.

Presbyterian Organization Elects Officers at Close of Monthly Banquet.

Joseph Jackson, Jr., was elected president of the Men's Club of the First Presbyterian church at the business meeting of the club which followed the monthly banquet served last night in the church. The other officers chosen were Charles Wadley, vice president and Fred French, secretary and treasurer.

Plans were laid for the entertaining of the women of the church at a banquet to be given by the Men's club on the night of April 6.

To perfect these plans a committee of five was appointed last night. This committee is composed of H. P. Swinehart, the retiring president of the club, John Richey, Charles Wadley, Hal T. Hooker and Roy Curfman.

At the banquet last night plates were laid for forty-five. Following the dining, a musical program was given on the piano and trombone by Hal T. Hooker and daughter, Halcyon.

OTTOMANS READY TO FLEE; SECURE FUNDS

Turkish Inhabitants Fearing Success of Enemy Prepare to Escape—Take Money to Konieh.

By American Press.

Paris, March 3.—The bombardment of the Dardanelles forts was resumed yesterday by the Allies, after a suspension on account of bad weather, says an Athens dispatch to the Matin. The Allied fleet has steamed into the straits and four battleships from the fleet are said to have bombarded the Turkish Arm along the Gulf of Saros. It is separated from the Dardanelles by the Gallipoli peninsula and is at the entrance to the Dardanelle straits.

The funds of the Ottoman bank of the German bank are said to have been taken from Constantinople to Konieh, to safeguard the institutions in case the enemy does succeed in getting through the Dardanelles. The inhabitants of Constantinople are said to fear the success of the Allies and are making ready to flee into the interior at a moments notice.

LIQUOR GETS 2 IN 'BAD'

John Williams Caused Levi Kelly's Return to County Jail, State Charges.

Close upon the heels of the remanding of Levi Kelly back to the county jail for violating his parole, came the arrest this afternoon of John Williams, a laborer, by Sheriff Edwin Wallace, on a charge of having given liquor to a minor. That said minor was Levi Kelly, 19 years old. The transaction is said to have been made Monday.

Kelly was sent back to jail by Circuit Judge W. C. Ellison this mornig, after being free a month. He was serving a sentence of six months and fine of $100 for an assault on John Touhy last June.

Williams has never been in trouble before, according to Sheriff Wallace. He will be tried during the April term of circuit court here, which begins April 5.

MANY FARM BILLS PROPOSED

Betterment to Farmers, Intent of Several State Measures—Committees Favor Them.

Several bills of interest to farmers and stockmen have made marked progress and are now far ahead of hundreds of other bills introduced at the same time in the state legislature. As this is regarded as a "farmer legislature," and as there has been practically no objection to the bills thus far, it is probable that they will become laws.

One of these embodies the "Nebraska plan," providing that county courts may appropriate money with which to encourage farmers' organizations of all kinds. The money may be used to pay hall rent, secure speakers, for printing and the like, and it is said that under a similar act in Nebraska 370 permanent associations have been formed. The societies take a wide range as to purpose and cover practically all phases of rural life. The bill has been favorably reported by the agricultural committees of both house and senate.

"Pure Seed Bill," on Calandar.

That old friend of the farmer, the "pure seed bill," which has been before practically every assembly for the last decade, only to fail because of hostility of the seed men, is again on the calandar, but in so mild a form as not to draw the fire of the dealers. It was drawn by Sam Jordan, farm adviser of Pettis county, and has the approval of the state board of agriculture. The board is permitted to make its own rules regarding the sale and distribution of seeds.

Missouri is one of the few states of the Union that has failed to enact legislation of this kind, and the result is said to be that it is the dumping ground for seeds that cannot find a market elsewhere. It is argued that Missouri must act this time as a matter of self-protection. The bill, which has been favorably reported in both houses, has an emergency clause.

Another bill to meet favor of the agricultural committee contemplates the annual collection of argricultural statistics. This is the Coburn law of Kansas, and requires county assessors outside the large cities, to ask of each taxpayer a few questions as to the number of acres of corn he has under cultivation, number and condition of his livestock and the like. This information is then collected from the several counties and published.

For Stockman's Relief.

A fourth bill is designed especially to better the conditions of the stockman and dairyman. It provides that if a dairy cow, for example, is condemned and killed under orders of the state veterinarian on account of having been exposed to a contagious disease or for failure to pass the tuberculin test, the dairyman may be paid out of the state treasury a maximum of $200 if the cow was a registered thoroughbred animal. If a "grade,' 'the maximum is $40 and the minimum $25.

The state cannot pay to exceed $25 under the present law for any animal killed under these conditions, since the act does not take into account the value of the animal. A result of this is said to be that farmers and dairymen had begun to lose interest in improving their herds.

This condition was aggravated by the recent epidemic of foot and mouth disease, which greatly increased the hazard, causing farmers in some parts of the state to dispose of their registered stock, in several instances at a sacrifice. They calculated that if they were going to forfeit their stock to the state at $25 a head they could better afford to lose an animal costing $40 than one costing several times that amount.

Friends of the measure contend that it will inject new interest in the breeding of fine stock, for both dairy and beef purposes.

All of these measures have been reported out favorably by the committees.—St. Joseph News-Press.

EXPECT BIG WHEAT YIELD

Nodaway Farmer Predicts Good Harvest and Big Prices Ahead.

Nodaway county farmers are preparing to materially increase the acreage they have been sowing to wheat. Representatives of wheat buyers have been through the county offering to make contracts now to buy every bushel of wheat the farmer can raise this year at $1 a bushel.

Farmers are not falling over themselves to sign contracts of this kind, but at the same time the offer is influencing them to increase their wheat acreage. They argue that if the dealers can afford to contract now to pay $1 a bushel in July and August, the market price at that time will be $1 or more and they can afford to carry their own risk, as to price, just as well as can the buyers.

Expect Big Yield .

The indications are, therefore, that this section of country will produce more spring wheat this year than ever before in its history. The only thing that can prevent it would be an unfavorable season. With a reasonable yield, wheat, at $1 a bushel on the farm, is more profitable to the grower than corn or livestock. No one knows this any better than the farmer himself and he is therefore turning his attention to wheat.

"The outlook for business ought to be good," said a Nodaway county farmer today. "The average farmer has been going a little slow for a year or two on account of business conditions. In short, the average farmer hasn't been making any money and when he isn't making money he doesn't spend any. With a favorable wheat season all of us will have money to spend this summer and the merchants and manufacturers in this section will profit thereby."

GETS TOP PORK PRICES.

G. T. Stevenson, Skidmore, Receives $6.70 For 129 Head, Averaging 223 Pounds.

George T. Stevenson, near Skidmore received top price for two cars of hogs which he sold in St. Joseph yesterday. He had 129 head of porkers, averaging 223 pounds each, which brought $6.70 a hundred weight, the record price of the day. In an interview which Stevenson gave at St. Joseph, to the Stock Yards Journal, he said:

"I don't see how I made any money on the hogs I sold today. In order to tide through the season, I had to buy corn at 70c a bushel. The roads are so bad that I couldn't get the corn delivered so I had to bring in the hogs anyway. I took advantage of the snow and drove to the station. It was an awful drive and the hogs certainly showed the effects. However, they took on a good fill here, compared with the weights at Skidmore, from where I shipped."

Mr. Stevenson said that the mud is worse in the country than he has known for many years. It is almost impossible to feed hogs. On account of a concrete feeding pen, Mr. Stevenson had less trouble than his neighbors.

Other Nodaway county farmers who marketed livestock in St. Joseph yesterday were:

C. E. Harvey, Pickering; Wells Bros and Stanson Bros., Maryville; Ed Albright, J. M. Hutt and J. A. McMahon, Skidmore; P. R. Growney, Conception; A. Walters, Burlington Junction.

ST. LOUIS WOMAN SUFFERS FOR 15 YEARS; THEN FINDS RELIEF

Mrs, Rosa Bennett Escapes Operation After Taking Wonderful Stomach Remedy.

Mrs. Rosa B. Bennett of 2606B Olive street, St. Louis, Mo., was ill with stomach troubles for nearly fifteen years. She had a great deal of medical attention and took many treatments. She was advised to undergo an operation by one specialist.

Then she took Mayr's Wonderful Stomach Remedy and found swift relief. She wrote:

"I was a sufferer for about fifteen years and I tried everything. I doctored with different doctors, and each one would give my trouble a different name. One said that I would never be any better until I was operated on, and another one said I had ulcers of the stomach. I could get no relief.

"I took Mayr's Wonderful Stomach Remedy.

"Now I can't praise your medicine enough."

Mrs. Bennett has had just the same experience with Mayr's Wonderful Stomach Remedy that thousands of others have had.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretion and removes poisonous matter. It brings quick relief to sufferers from derangements of the stomach, liver and intestinal tract. Many declare it has saved them from dangerous operations; many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy. One dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold here by Pearson's Pharmacy and druggists everywhere.

MOTHER! IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Bilious, Stomach Sour, Give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup company."

SUBMARINES TO ATTACK FOES ONLY

Germany Accepts All American Proposals but One.

CAN'T RESTRICT OPERATIONS.

Vessels Carrying Contraband or Owned by Hostile Countries Will Be Proceeded Against—Every Other Craft Will Be Safe After Search.

Berlin, March 3.—In its reply to the American note concerning the German naval war zone, the German government agrees that under certain conditions, its submarines will halt and investigate merchantmen and will proceed against only such vessels as are found to be carrying contraband or are owned in nations hostile to Germany.

The reply declares Germanys' readiness to accept virtually all of the American proposals except the one which would restrict the use of anchored mines to purely defensive purposes. The German government expresses the belief that belligerents cannot afford to abandon entirely the use of anchored mines for offensive operations. It is willing to consider the abandonment of floating mines.

In case German submarines take action, after investigation, against merchantmen carrying contraband or owned in hostile countries, it is agreed that such action will be in accordance with the general rules of international law. This proposes, however, the abandonment of the use of neutral flags by merchantmen of hostile nations or the arming of such merchantmen.

Can't Restrict Operations.

If such tactics were employed, Germany contends, it would be impossible to restrict the operations of submarines in this manner.

The reply suggests that there be constituted in the countries concerned American commissions, to which supplies of foodstuffs for the use of civilian populations could be consigned.

This plan, it is said, is contemplated in the American proposals. The reply also suggests that these commissions should be allowed to import the distribution of other articles, especially fodder, which are on the conditional contraband list in the declaration of London. Germany stated that inner defense with articles on the absolute free list in the declaration of London should be abandoned.

URGE SPAIN TO JOIN ALLIES

Social Radical Speakers Protest Against Attitude of Neutrality.

Madrid, March 3.—Many demonstrations, in which Spanish participation in the war was urged, were held in Spain. The most imposing gathering was at Barcelona, where Social Radical speakers protested against Spain's attitude of neutrality and warmly upheld the cause of the allies.

Compulsory Education For Russia.

New York, March 3.—An officer of the emperor's household, in a letter to a friend in this city, writes that the second wide-sweeping reform to be effected in Russia will be compulsory education. The letter states that M. Kasso, minister of instruction and religion, is formulating a decree to be issued on the termination of the present hostilities and to be in full effect throughout the empire within a period of five years.

Receiver Asked For Western Pacific.

San Francisco, March 3.—The Equitable Trust company of New York filed a petition with Judge Van Fleet of the United States district court, asking that the Western Pacific railroad be placed in the hands of a receiver. The petition was joined in by the Western Pacific company and both asked that Warren Olney, chief counsel of the railroads, be named receiver.

VENNER DEFENDS RAIL TRANSACTION

Makes Public Letter to Interstate Board Giving His Side of Case.

New York, March 3.—C. H. Venner, a New York banker, made public a letter he sent to the interstate commerce commission defending the purchase from him by the Chicago, Rock Island and Pacific Railway company in 1904 of the stock of the Nebraska Central Railway company.

Venner referred to testimony by Frederick C. Sharood, an examiner for the commission, that the stock was worthless and that the late Robert Mather, then vice president of the Rock Island company, paid Venner $250,000 for it in settlement of a lawsuit then pending.

Venner incorporated in his letter correspondence between himself and Mr. Mather as proof of the value of the bridge charter and franchises owned by the Nebraska Central.

"It does not follow," his letter continued, "that because the Rock Island never utilized them the company suffered a loss, for it may well be that their ownership enabled the company to make terms with the Union Pacific, the advantages of which more than equalized the cost of the Nebraska Central stock."

160 MINERS ENTOMBED

Only Two Rescued From Wrecked Colliery In West Virginia.

Hinton, W. Va., March 3.—Attempts to reach 160 men reported entombed in two coal mines near here met with little success.

After repeated efforts, one rescue party penetrated the main drift at mine No. 3 about 100 feet and there found an unidentified miner still living, but unconscious. His legs had been broken. Doctors said he would probably die.

The place where the explosion occurred is a drift high up on Quinnimont mountain. Additional volunteers entered mine No. 3 to clear away fallen coal and rock in the main entry. Half a mile from the opening they came across another miner, badly hurt and unable to talk or say anything about the explosion. Here they encountered a mass of debris.

Wilson Abandons Extra Session Idea.

Washington, March 3.—President Wilson stated definitely that he had abandoned plans for an extra session of the senate immediately after March 4, and up to the present had not seriously considered the suggestion of a special session of congress in October.

Wooley Nominated Director of Mint.

Washington, March 3.—Robert W. Wooley of Fairfax, Va., now auditor for the interior department, was nominated by President Wilson as director of the mint, to succed George W. Roberts, resigned.

BAKERS ATTEMPT TO BOYCOTT RETAILERS

New York, March 3.—At the resumption of the state's inquiry into the wheat and bread market, Alfred L. Becker, deputy attorney general, announced that from F. S. Taylor of this city and Louis J. Cobb of Philadelphia, representatives of large baking companies, he would seek facts concerning an alleged combination of various baking concerns and interests.

The deputy attorney general has announced that in addition to the public inquiry, he is making a wide search for evidence that some of the wholesalers have tried to intimidate or boycott retailers who refused to raise prices. An analysis of samples of dough and flour taken from certain bakeries are being made to determine what relation there is between present prices and present ingredients.

More Charming Wooltex Tailored Garments
Than these Advance Spring Models now displayed

THE picture shows just one of the many smart new suits presenting the correct style features, many of which are inspired by models brought from Paris where Paquin, Doucet and Bernard have produced splendid styles notwithstanding the war's handicap. Many of these effects are reproduced in the new Wooltex suits and coats now on exhibition.

Suit No. 1709

SMART looking suit adapted from Paquin model. The pocket flaps, set diagonally, are outlined by closely set buttons. Rolling collar forms tabs that button down onto the jacket. New circular skirt, yoke trimmed to correspond with pockets on jacket.

WE are particularly gratified in showing and selling Wooltex garments because they possess the double virtue so unusual in women's ready-to-wear garments of combining fashionable styles and colorings with quality and workmanship of the highest superiority.

We always know that the customer who purchases a Wooltex coat or suit will be permanently satisfied with the garment bought, and we are anxious that you should come and look through this Wooltex collection while they are fresh and new and while possession is so much more enjoyable than it will be later, when the new fashions become more common.

Wooltex garments are absolutely correct in style but never extreme. They delight the purchaser when first worn because of their elegance of materials, their refinement, their superb lines and the splendid tailoring which not only makes them good-fitting, but insures permanence to the shapeliness of the garments.

The new Wooltex suits are shown in many beautiful models at **$25, $30** and **$35.**

WHEAT NOT RECOMMENDED.

Agricultural Experiment Station Advices Against Sowing Spring Wheat.

C. B. Hutchison of the Missouri Agricultural Experiment Station of Missouri writes as following about spring wheat:

The Missouri Agricultural Experiment Station is receiving many inquiries this spring in regard to the advisability of sowing spring wheat. Rains last fall at wheat seeding time kept some farmers from seeding the acreage they had intended for wheat this year. With the prospects of wheat commanding, next year, the highest price in decades, there is a temptation to try spring wheat.

Spring wheat is not a safe crop this far south, as the yields are very uncertain. Wheat makes its growth in cool climates and during the coolest part of the growing season. It cannot stand hot weather. When seeded in the fall, it matures before the hot weather of summer begins. In the north, where the winters are too severe for seeding wheat in the fall, spring wheat is grown. In these regions the spring and summers are cool enough to permit its maturing. In those regions where both spring and winter wheat are grown, spring sown wheat nearly always yields less than wheat sown in the fall, and winter wheat is gradually replacing spring wheat wherever the winters are mild enough for it to stand. The winter wheat belt has been gradually pushed northward during the last fifty or sixty years from northern Missouri to northern Iowa. Even northern Iowa is not considered a first-class spring wheat region and it is not likely that the crop would be profitable this far south.

Spring wheat in Missouri matures so late that it is not only subjected to the hot weather, but to rust, chinch bugs and other enemies. Under such conditions the yields become very uncertain, hence the crop is not to be generally recommended for this state. Other crops will be found more profitable.

FIGHTING ALONG EASTERN FRONT

Czar's Armies Push Germans Back to East Prussia Border.

OSSOWETZ IS BEING SHELLED

Nothing Is Heard In London From Dardanelles and It Is Thought Storm Halts Move—Kaiser Rushes Men to Western War Zone.

WAR SUMMARY

The Russian armies are fighting the Germans and Austrians along almost the whole eastern front, pushing the former back to the East Prussian border and meeting the attacks of the latter in the Carpathians.

Germany is believed to be about to send heavy reinforcements to the west. Belgian cities have been ordered to be prepared to billet German cavalry.

Stormy weather is believed to have interrupted the operations against the Dardanelles forts.

London, March 3.—The Russian armies are now engaged in battles along very near the whole eastern front. In north Poland, having been enabled to resume the offensive by means of large reinforcements, they are slowly pushing the Germans back to the East Prussian frontier. In the Carpathians and in eastern Galicia they have been engaged for several days in resisting fierce and repeated attacks by the Austrians.

Except in front of the fortress Ossowetz, which they are still bombarding with their heavy guns, the Germans, according to the Russian official reports, have turned their backs upon the Russian railway—their first objective when they emerged from East Prussia on the heels of the retreating Russians a short time ago. In some places, however, they are fighting stubborn rear guard actions.

Despite all this heavy fighting in the east, the Germans are reported to be sending strong reinforcements to the west for a new attempt which they are to make to break through the allies' lines in France and Flanders.

Nothing has been heard in London from the Dardanelles and it is thought possible that the storm is still interfering with the operations.

ANARCHIST PLOT FOILED

Man Who Threw Bomb In St. Patrick's Cathedral Arrested.

New York, March 3.—A desperate attempt to blow up St. Patrick's cathedral in New York with a bomb and the arrest of two men by detectives, who had been informed for months of their activities, was followed by an announcement made at police headquarters that the arrests had balked an anarchist plot to kill with bombs Andrew Carnegie, John D. Rockefeller, John D. Rockefeller, Jr., and other wealthy men. Thereafter the anarchists, according to the police, were to inaugurate in New York city a reign of terror comparable to the days of the French revolution.

It was part of the plot, the police assert, for gangs of men armed with rifles and revolvers to appear simultaneously in various parts of the city, to shoot and to pillage. The biggest banks of New York city were to be blown up and many wealthy men were to be slain.

Liners Reach New York.

New York, March 3.—Two trans-Atlantic passenger liners that left the home ports flying flags of the allies after the German war zone declaration was put into effect arrived here. They were the British steamship Cameronia of the Anchor line from Glasgow and Liverpool and the French line steamship Chicago from Havre. Both carried a large number of passengers.

Bicknell and James See King.

Sofia, Bulgaria, March 3.—The king and queen of Bulgaria granted an audience to Ernest Bicknell, national director of the American Red Cross society, and Henry James, Jr., representative of the Rockefeller Foundation. These Americans have been traveling in southeastern Europe for further relief measures. They arrived here from Nish, Servia.

George E. Garrett Is Dead.

San Diego, Cal., March 3.—George E. Garrett, familiarly known in newspaper offices and to the sporting world as "Willie Green," died here from a complication of diseases of long standing. He leaves a widow and children. Willie Green was better known for his articles on prize fighting and he reported or refereed many famous contests.

Allies Delay Drastic Action.

London, March 3.—To make effective the British declaration of the allies' intention to stop commerce to and from Germany, an order by the privy council will be necessary. Up to the present such an order in council has not been passed.

GERMAN OFFENSIVE MOVEMENT CHECKED

Paris Gives Out Review of Operations In East.

Paris, March 3.—A review of recent military activities in the eastern arena of the war reads as follows:

"The situation in Russia: The German offensive movement in the direction of the Nieman river appears to have been definitely checked. On the left bank of this stream the German forces hold a line running from Pilliwiszki to Chantabine, in the upper valley of the Bobr.

"In the vicinity of this last mentioned place and on the southern boundary of the forest of Augustowo there have been during the last few days several violent engagements, which have resulted to the advantage of the Russians. The attacks delivered by the Germans on Ossowetz and in the region of Jedwabno, to the northwest of Lomza, have not resulted safely.

"In the region of Przasynsz the Russians, after having driven back the attacks of the Germans, undertook a vigorous offensive along a front extending for about forty kilometers This movement was crowned with success. Krasneselo and Przasynsz were recaptured and the Germans were compelled to retreat along this entire front, leaving numerous prisoners in the hands of the Russians.

"All the engagements undertaken by the enemy along the front which extends from the junction of the Bzura river to the Carpathians, as far as Mount Lupkow, have resulted fruitlessly, and the situation here remains virtually without change. All the recent attacks of the Austrian and German forces, which were particularly severe in the direction of Koziuwki and Rozniatow have been repulsed with heavy losses. Judging from other sources also it would seem that the progress of the enemy in this vicinity has been definitely checked.

"To organize the forces with which Field Marshal Hindenburg undertook this offensive movement, which now stands checked, the German brought three army corps from the southern part of their eastern fronts; two others from stations in the interior of the country and one from the French front."

Shugrue Cancels Ring Engagements.

New York, March 3.—Joe Shugrue, lightweight boxer, announced that he had cancelled all engagements, owing to blindness in one eye and the danger of losing the sight of the other. Shugrue recently posted a $5,000 forfeit for the world's lightweight championship.

Japs Aided In Sea Victory.

Berlin, March 3.—According to information received here, the defeat of the German squadron under Admiral Graf von Spee near the Falkland islands was accomplished by the combined efforts of a Japanese and a British fleet.

CONGRESS IS BUSY FINISHING WORK

Washington, March 3.—Congress settled down for what the leaders expect to be a continuous session until the gavel falls to signalize its end at noon tomorrow. The house marked time for a few hours after sending the government ship purchase bill back to conference while committees labored on final agreements on the billion-dollar appropriations for expenses of the government. Meanwhile the senate sought energetically to catch up on the legislative program.

Developments of the day practically sealed the fate of the ship purchase bill, administration leaders agreeing that it would be almost impossible to act upon the conference report in the senate after it is disposed of by the house.
